

Mike has been gaining expertise in the construction industry in both field work and management for 15 years. He has provided leadership for a variety of commercial projects, specializing in the Health Care, Education and Retail markets. Mike's keen sense of the detail and exceptional follow through have served him well. As Project Manager, he is responsible for the coordination and supervision of all on- and off-site work.

### Training

#### OSHA Courses

- OSHA 30hr and 10 hr Safety Cards
- Construction Safety & Health Specialist

### Relevant Construction Experience & Accomplishments

#### Commercial

#### **Lyons National Bank:** *Ontario, NY 14519*

- Supervised the complete interior renovation of existing shell space into a new 3,200 SF retail branch bank.

#### **Abbott's Frozen Custard:** *Henrietta, NY 14623*

- Managed the new construction of existing shell space into a retail outlet. Build out of the retail operation included plumbing, electric, HVAC, flooring, and casework.

### Previous Construction Experience & Accomplishments

#### Commercial

#### **Glenn Riddle Housing Community:** *Ocean City, MD*

- Managed the new construction of a large-scale high-end residential community. Coordinated trade work and maintained quality control. Oversaw that the home owner's expectations were met and concerns were addressed throughout the project.

#### **Gabrielle H. Reem & Herbert J. Kayden Center for Science / Computation:** *Hudson Valley, NY*

- Worked as part of the management team that led the new construction of a state-of-the-art, 70,000 SF science facility at Bard College. The project included creation of numerous specialized lab spaces, classrooms, and many common spaces. Highlights of the building include an enormous open lobby which incorporates the elements of the earth, such as exposed concrete and copper patina panels, and a 250-well geothermal system.

#### **Cayuga Medical Center:** *Ithaca, NY*

- Oversaw, as part of the management team, a 14,000 SF 3-story addition and interior renovations of 15,000 SF in an occupied hospital setting. The project encompassed a gift shop, four operating suites, a hyperbaric wound clinic, new mechanical penthouse, an Obstetrics Wing and a Neonatal Intensive Care Unit. Strict adherence to Health Department and ICRA standards were required.

#### **State Funded Heavy Highway Projects:** *Southern Tier, NY*

- Performed a wide range of duties including laborer, grade foreman and surveying.

#### **Multiple Public School Projects:** *Southern Tier, NY*

- Managed all on-site trade work and schedule adherence for fast track projects which necessitated completion prior to the students return for the school year.
